Subject: Telida Water Quality Screening Results
Attachments: Kuskokwim River Screening Report_final.pdf; KRS Appendix A.pdf; Telida WQS Map.JPG; Telida WQS Comments.doc

Hi Charlene!

As discussed, the report and appendix summarizing the screening results for the sediment and water samples you collected, a map of the sampling sites, and some other staff comments are attached here.

Here's a link to that BLM report I referred to on Mercury, Arsenic, and Antimony in the Middle Kuskokwim River Region-
http://www.blm.gov/pgdata/etc/medialib/blm/ak/aktest/fisheries.Par.17988.File.tmp/Interim_Mercury_Arsenic%20_Antimony_FT_Technical_Report_Dec2012v2.pdf

Here's a link to more information about the BLM work-
http://www.blm.gov/pgdata/content/ak/en/prog/fisheries/rdm_fish.html

Here's a link to that ADEC site on fish consumption where there are some useful fact sheets-
<http://www.epi.alaska.gov/eh/fish/>.

Here's a link to some EPA information on Arsenic (there are several tabs on the page) that may be helpful, although it's focused on drinking water- <http://water.epa.gov/lawsregs/rulesregs/sdwa/arsenic/index.cfm>.

And here's a link to some EPA information on fish consumption in general.
<http://water.epa.gov/scitech/swguidance/fishshellfish/fishadvisories/index.cfm>

You should be very proud of your work on this. I look forward to continuing to support your efforts as best I can.

Sincerely,

Katherine Brown, M.S.
